

Facility, Planning, Construction

As modular specialists, we ensure your building is safely installed and ready for use no matter the site conditions. With decades of experience installing buildings in all manner of locations, topography and environments, we have the skills and experience to get the job done.

Building Tie Downs

Wind speed and pressure can put your building and team at risk.

To ensure your building is safely secured to the ground, we offer a range of engineered cyclonic tie downs from 1.6 to 3 Tonne, ideal for when you cannot penetrate the ground.

Check your wind region to identify whether security is needed for your buildings.

Don't get caught out! Add cyclonic blocks to your site for peace of mind in all weather situations.

Facility Management

We offer a range of facility management services to keep your buildings clean and functional. Whether you require commercial cleaning of your buildings, inspections (test & tag) of electrical equipment or fire system servicing to ensure regulatory compliance, Ausco has you covered.

Commercial Cleaning

- > Regular & Periodical Cleaning of your buildings, maintaining cleanliness and longevity.
- > Management of building waste including emptying bins and proper disposal.
- > Auditing of your building's conditions to provide you with information on the state of your site.

Test & Tag

- > Inspections of your electrical equipment to ensure they are safe and serviceable.
- > Scheduled inspections to work around your site or project requirements.

Fire System Servicing

- > Inspection and testing of extinguishers, smoke detectors, emergency lighting and other fire safety equipment.
- > Comprehensive service to ensure your fire protection equipment is functional and compliant with fire safety legislation.
