High Level Warning Alarm System

The high level alarm system is designed to provide warning indication when waste storage (effluent, grey water etc) tank is either empty or full.

☑ This product is highly recommended to be used with our waste tanks for peace of mind.

Key Features

- > Designed to be plug and play
- > Safety low voltage DC outlet
- > Normally open solenoid
- > Designed to initiate both visual and audible alarms as soon as an alarm condition occurs
- > Audible alarm can be silenced by way of mute button or it will automatically silence after 5 minutes of sounding
- > Tough UV design for hot climate conditions
- > Solenoid function to cut water supply/flow

Product Information

- > Warning Conditions determined by Float Switch
- > Warning alarms are: **Audio - Buzzer and Visula - LED pilot light/strobe**
- > The buzzer can be muted Via the Mute button, The Visual alarms will remain on until the alarm condition is rectified.
- > The water solenoid is energised whenever a level alarm is activated meaning this shuts the water off to the amenities until the alarm condition is rectified
